1. Synthèse

This document is a high level overview measures taken by Foo for Bar project.

The purpose of this document is to show possible dangers and measures being taken to prevent them from legal and ethics point of view.

Axe 1 : digitalisation du réel - réinventer l'outil industriel grâce au numérique

1.1. Risks and measures

1.1.1. Risk of casualties if device does not stop and destroys itself

When is it safe to turn off if we turn it off too early or are too risk-averse, economic losses of the device not working can be incurred. If on the other hand the risk of leaving the device on is accepted an ensuing potential failure bears the risk of casualties. How can we be protected in this case: Only by finding the right combination of risk / economic performance and a proper insurance coverage.

Research [\[AD-1\]](#) shows the different correlation factors based on different models of machine learning. Based on these findings another model / formula can be derived in which we can calculate risk and evaluate costs of insurance which can cover risk of casualties, et al.

1.1.2. Risk of killing birds and polluting the environment

The software is set up on pre-existing devices which should have already passed regulatory checks and certification concerning these risks. The use of smart sensors technology in no way compromises security as the software is solely responsible for shutting down and starting a device without affects its normal operation nor its structure.

1.1.3. Noise and vibration levels

During operation, sound and vibration continue to be emitted into the water body, potentially disturbing the communication and foraging behaviour of animals in immediate surroundings. Harbour porpoises and other cetaceans rely heavily on echolocation for navigation and foraging. Long term impacts seem to vary between different sites. The operational noise of devices will be clearly audible to some mammals, but, unlike pile-driving, the impact of this noise is expected to be small and localised, although it is difficult to make generalised statements.

Since the software will measure vibration & noise levels in order to use it for creating and applying deep machine learning mathematical models we expect that through better modelling and better indirect control of noise and vibrations this will eventually benefit marine life and still keep within correlated noise and vibration in allowed by regulations levels [RD-1].

Finally an abbreviation: [AB-1], mixed with another link to an external [document](#) which should not be touched.

2. Header Embedded Document

This is the content of an embedded document loaded via reference.

2.1. Header Embedded Document content Examples

Some more references to include in the overall tables [AD-2], as well another image.

TBL-3 - Project effort by organization

Reference	Deliverable	Date	Responsible Party
Template.Test.Sale.Order.Milestone.1	Conception of components	2018-12-31	Test Recipient
Template.Test.Sale.Order.Milestone.2	Development of Components	2019-12-31	Test Recipient
Template.Test.Sale.Order.Milestone.3	Deployment of FooBarBazBam	2020-12-31	Test Recipient

TBL-4 - Synthesis of Deliverables

3.3. Template Test Sale Order Line 1 - Work Package 1

ID: Template.Test.Sale.Order.Line.1	Begin: 2018/12/31 00:00:00 UTC 31/12/2018	End: 2018/12/31 00:00:00 UTC 31/12/2018
Duration: 100.0	Leader: Test Association	Resources: Test Association Member, Test Author
Locations: Test Recipient		

The work package 1 consists of conception of the four software components foo, bar, baz and bam. It should be clear after this work package is completed what needs to be done.

3.3.1. Template.Test.Sale.Order.Line.1.1 - Conception of F00

ID: Template.Test.Sale.Order.Line.1.1	Requirement Coverage: Template.Test.Requirement.Sale.Order.1
Begin: 2018/03/31 00:00:00 UTC	End: 2018/12/31 00:00:00 UTC 31/12/2018 Duration: 20.0
31/03/2018	
Leader: Test Association	Resources: Test Association Member Locations: Test Recipient

This item comprises the conception of software component F00. Everything required to make a proper F00 should be specified in this conception phase in close communication with the client. Ample time is given as F00 is going to be a complex piece of software.

3.3.2. Template.Test.Sale.Order.Line.1.2 - Conception of BAR

ID: Template.Test.Sale.Order.Line.1.2	Requirement Coverage: Template.Test.Requirement.Sale.Order.1
Begin: 2018/06/30 00:00:00 UTC	End: 2018/12/31 00:00:00 UTC 31/12/2018 Duration: 20.0
30/06/2018	
Leader: Test Association	Resources: Test Association Member Locations: Test Recipient

This item comprises the conception of software component BAR. Everything required to make a proper BAR should be specified in this conception phase in close communication with the client. Ample time is given as BAR is going to be a complex piece of software.

3.3.3. Template.Test.Sale.Order.Line.1.3 - Conception of BAZ

ID: Template.Test.Sale.Order.Line.1.3	Requirement Coverage: Template.Test.Requirement.Sale.Order.1
Begin: 2018/09/30 00:00:00 UTC	End: 2018/12/31 00:00:00 UTC 31/12/2018 Duration: 20.0
30/09/2018	
Leader: Test Association	Resources: Test Association Member Locations: Test Recipient

This item comprises the conception of software component BAZ. Everything required to make a proper BAZ should be specified in this conception phase in close communication with the client. Ample time is given as BAZ is going to be a complex piece of software.

3.3.4. Template.Test.Sale.Order.Line.1.4 - Conception of BAM

ID: Template.Test.Sale.Order.Line.1.4	Requirement Coverage: Template.Test.Requirement.Sale.Order.1
Begin: 2018/12/31 00:00:00 UTC	End: 2018/12/31 00:00:00 UTC 31/12/2018 Duration: 20.0
31/12/2018	
Leader: Test Association	Resources: Test Association Member Locations: Test Recipient

This item comprises the conception of software component BAM. Everything required to make a proper BAM should be specified in this conception phase in close communication with the client. Ample time is given as BAM is going to be a complex piece of software.

3.3.5. Template.Test.Sale.Order.Line.1.5 - Definition of Interdependencies

ID: Template.Test.Sale.Order.Line.1.5	Begin: 2018/12/31 00:00:00 UTC 31/12/2018	End: 2018/12/31 00:00:00 UTC 31/12/2018
Duration: 20.0	Leader: Test Association	Resources: Test Author
Locations: Test Recipient		

Since this is such a complex software project there are bound to be a lot of interdependencies between foo, bar, baz and bam. In this step all interdependencies will be mapped and the overall software components alignment specifications derived.

3.4. Template Test Sale Order Line 2 - Work Package 2

ID: Template.Test.Sale.Order.Line.2	Begin: 2019/12/31 00:00:00 UTC 31/12/2019	End: 2019/12/31 00:00:00 UTC 31/12/2019
Duration: 120.0	Leader: Test Association	Resources: Test Association Member
Locations: Test Recipient		

This work package consists of the actual development of the software components. Blablabla.

3.4.1. Template.Test.Sale.Order.Line.2.1 - Development of F00

ID: Template.Test.Sale.Order.Line.2.1	Requirement Coverage: Template.Test.Requirement.Sale.Order.2.1, Template.Test.Requirement.Sale.Order.2	
Begin: 2019/03/31 00:00:00 UTC 31/03/2019	End: 2019/12/31 00:00:00 UTC 31/12/2019	Duration: 20.0
Leader: Test Association	Resources: Test Association Member	Locations: Test Recipient

With everything specified, F00 can be developed. This includes development of the actual F00 component as well as automated unit, integration and scalability tests.

3.4.2. Template.Test.Sale.Order.Line.2.2 - Development of BAR

ID: Template.Test.Sale.Order.Line.2.2	Requirement Coverage: Template.Test.Requirement.Sale.Order.2.2, Template.Test.Requirement.Sale.Order.2
Begin: 2019/06/30 00:00:00 UTC 30/06/2019	End: 2019/12/31 00:00:00 UTC 31/12/2019 Duration: 20.0
Leader: Test Association	Resources: Test Association Member Locations: Test Recipient

With everything specified, BAR can be developed. This includes development of the actual BAR component as well as automated unit, integration and scalability tests.

3.4.3. Template.Test.Sale.Order.Line.2.3 - Development of BAZ

ID: Template.Test.Sale.Order.Line.2.3	Requirement Coverage: Template.Test.Requirement.Sale.Order.2.3, Template.Test.Requirement.Sale.Order.2
Begin: 2019/09/30 00:00:00 UTC 30/09/2019	End: 2019/12/31 00:00:00 UTC 31/12/2019 Duration: 50.0
Leader: Test Association	Resources: Test Association Member Locations: Test Recipient

With everything specified, BAZ can be developed. This includes development of the actual BAZ component as well as automated unit, integration and scalability tests. As BAZ is a bit more complicated, some days are added to this item.

3.4.4. Template.Test.Sale.Order.Line.2.4 - Development of BAM

ID: Template.Test.Sale.Order.Line.2.4	Requirement Coverage: Template.Test.Requirement.Sale.Order.2.4, Template.Test.Requirement.Sale.Order.2
Begin: 2019/09/30 00:00:00 UTC 30/09/2019	End: 2019/12/31 00:00:00 UTC 31/12/2019 Duration: 10.0
Leader: Test Association	Resources: Test Association Member Locations: Test Recipient

With everything specified, BAM can be developed. This includes development of the actual BAM component as well as automated unit, integration and scalability tests. BAM is easy, no problem to do in less time.

3.5. Template Test Sale Order Line 3 - Work Package 3

ID: Template.Test.Sale.Order.Line.3	Requirement Coverage: Template.Test.Requirement.Sale.Order.3
Begin: 2019/12/31 00:00:00 UTC 31/12/2019	End: 2020/12/31 00:00:00 UTC 31/12/2020 Duration: 20.0
Leader: Test Association	Resources: Test Author Locations: Test Recipient

This work package consists of deployment of the solution consisting of software components foo, bar, baz and bam. To make stuff more complicated, this is a single item post.

3.6. Template Test Sale Order Line 4 - Work Package 4

ID: Template.Test.Sale.Order.Line.4	Begin: 2020/12/31 00:00:00 UTC 31/12/2020	End: 2020/12/31 00:00:00 UTC 31/12/2020
Duration: 1.0	Leader: Test Association	Resources: Test Sender
Locations: Test Recipient		

This work package contains the maintenance and extra fees.

3.6.1. Template.Test.Sale.Order.Line.4.1 - System Setup

ID: Template.Test.Sale.Order.Line.4.1	Begin: 2020/12/31 00:00:00 UTC 31/12/2020	End: 2020/12/31 00:00:00 UTC 31/12/2020
Duration: 1.0	Leader: Test Association	Resources: Test Sender
Locations: Test Recipient		

This is a one time charge for system setup consisting of installing Foo, Bar, Baz and Bam on a computer of choice.

3.6.2. Template.Test.Sale.Order.Line.4.2 - Postage

ID: Template.Test.Sale.Order.Line.4.2	Begin: 2020/12/31 00:00:00 UTC 31/12/2020	End: 2020/12/31 00:00:00 UTC 31/12/2020
Duration: 1.0	Leader: Test Association	Resources: Test Sender
Locations: Test Recipient		

Estimated postage charges. Being stingy on purpose.

3.7. Milestones

3.7.1. Milestone: Conception of components

ID: Template.Test.Sale.Order.Milestone.1	Begin:	End: 2018/12/31 00:00:00 UTC 31/12/2018
Location: Test Recipient		

All four components foo bar baz and bam are well defined, technically specified and understood by the customer.

3.7.2. Milestone: Development of Components

ID: Template.Test.Sale.Order.Milestone.2
Location: Test Recipient

Begin:

End: 2019/12/31 00:00:00 UTC 31/12/2019

The components are all developed and shipped to the customer.

3.7.3. Milestone: Deployment of FooBarBazBam

ID: Template.Test.Sale.Order.Milestone.3
Location: Test Recipient

Begin:

End: 2020/12/31 00:00:00 UTC 31/12/2020

The solution made from foo, bar, baz and bam is deployed in production.

This is another snarly comment.				

3.8. Test.Template.Requirement.Sale.Order Test Template Requirement Sale Order

Requirements for Template Test Sale Order

Reference	Title	Description
Template.Test.Requirement.Sale.Order.1	Template Test Requirement Sale Order 1 - Conception	This is more blablabla on the conception of Foo, Bar, Baz and Bam. It should include all hokus and pokus required in those components validated by the client. <i>This requirement covers conception and definition of the software components Foo, Bar, Baz and Bam.</i>
Template.Test.Requirement.Sale.Order.3	Template Test Requirement Sale Order 3 - Deployment	This requirement covers deployment of the solution on the clients machine of choice. All four components need to be installed for this requirement to be met. <i>This is another snarly comment.</i>

TBL-5 - Summary of Requirements

3.9. Template.Test.Requirement.Sale.Order.2

Template Test Requirement Sale Order 2 - Development

This requirement covers all development steps. It's split into four sub requirements to make this a bit more complicated.

Reference	Title	Description
Template.Test.Requirement.Sale.Order.2.1	Template Test Requirement Sale Order 2 1 - FOO	This requirement covers the development of Foo. All things foo related to development should be mentioned here. <i>Complement Foo</i>
Template.Test.Requirement.Sale.Order.2.2	Template Test Requirement Sale Order 2 2 - BAR	This requirement covers the development of Bar. All things Bar related to development should be mentioned here. <i>Barista!</i>
Template.Test.Requirement.Sale.Order.2.3	Template Test Requirement Sale Order 2 3 - BAZ	This requirement covers the development of Baz. All things Baz related to development should be mentioned here. <i>Bazmati isn't it?</i>
